

Law and order in the U.S.A.
That's how they'll make us pay
Communism and tooth decay
U.S. will save the world today
Here I am in a mechanical world
Mechanical boys, mechanical girls
They said I'm not like them
They put me in a special place
They said I was a big disgrace
To the human race
My mother was a junkie
My father was a faggot
I grew up in the tenderloin where
The streets are filled with maggots
They told me they'd put me in a place
That would protect me from myself
They were full of shit they don't know

How to help me
They told me I was a vagrant
They put me behind bars
They said I was a miscreant
They said I was a rapist
They called me a murderer
They called me a junkie
They said I did not belong in this
World of law
