

## Crazy

Fantasia

I got it, they want it, but really what's new?  
I'm young, and i'm black, and i'm missing a screw.  
They will never catch us, misfits on the run  
They do not not expect us out, lost, having fun.  
I got it, they want it, but really what's new?  
I do what I like, I got nothing to prove.  
They will never catch us, partners on the low  
They do not expect us, not until we blow.

I don't believe in school, but I only have one rule  
If you're down with me you gotta be.you gotta be crazy.To be in  
love with me, you gotta be crazy.You're the one I see

I know you might have heard some phrase like " Up assist the tr  
ack," but if you really want to know what starts my cardiac  
You gotta be crazy.To be in love with me, you gotta be crazy.Ju  
st like me

I got it, they want it, they watching my moves  
I'm playing a game, I got nothing to lose  
They will never catch us writing on the lines  
They do not expect us, can't you see the time?  
I got it, they want it, they watching my moves  
If I am a riddle, they can't get a clue  
They will never catch us, we'll never confess  
They do not expect us weirder than the rest

I don't believe in school, but I only have one rule  
So if you're down with me you gotta be.you gotta be crazy.To be  
in love with me, you gotta be crazy.You're the one I see

I know you might have heard some phrase like "Up assist the tra  
ck," but if you really want to know what starts my cardiac  
You gotta be crazy.To be in love with me, you gotta be crazy.Ju  
st like me

Lets just pretend we didn't, and do it anyway  
I want to live how I live, let them say what they say  
Just let it go for a little while, cause the rules are so outta  
style.Yeah?

I got it, they want it, but really what's new?
