Don't look now. I saw you dancing on that speaker box, girl what's your name? I see you texting on that B.B.M., can we exchange? I got two glasses at my table, can I show you the way? Tonight's the night to let it go, go, girl it's okay. Yeah, I'm not looking for no strings, you're not looking for a ring If you're ready for this fling, then meet me in the back. I never knew it'd be like this, such an unexpected twist Started off with just a kiss, I don't know how to act. Dear heart, I know I said I'd take it slow I know I swore on everything I own But I can't resist, how's just one kiss? But don't look now You've got me going, I'm going, I'm gone. Don't look now You've got me going, I'm going, I'm gone Don't look now I can't resist, how's just one kiss? Don't look now. My heart is pumping like that bass before I pick you up The way we stole each others hearts we playing Stick em up I take a shot of Ciroc to get me in the zone now She took a step out the door, from head to toe she's all 'wow' I'm not looking for no strings, you're not looking for a ring. If you're ready for this fling, then meet me in the back. I never knew it'd be like this, such an unexpected twist Started off with just a kiss, I don't know how to act. Hey, uh, I know I promised you I'd take it slow I know I swore on everything I own But I can't resist, how's just one kiss? But don't look now You've got me going, I'm going, I'm gone. Don't look now You've got me going, I'm going, I'm gone Don't look now I can't resist, how's just one kiss? Don't look now. Somethin' 'bout this girl She shakin' up my world She got me doin' things I never did before. Damn, there's somethin' 'bout this girl She shakin' up my world She got me out my zone, I'm losin' all control. Somethin' 'bout this girl She shakin' up my world She got me doin' things I never did before. Damn, there's somethin' 'bout this girl She shakin' up my world She got me out my zone, I'm losin' all control. Hey, uh, I know I promised you I'd take it slow

I know I swore on everything I own

But I can't resist, how's just one kiss? But don't look now You've got me going, I'm going, I'm gone. Don't look now You've got me going, I'm going, I'm gone Don't look now You've got me going, I'm going, I'm gone Don't look now You've got me going, I'm going, I'm gone Don't look now.
