

Look At You Now

Far Too Jones

Well I know you
You're always the stupid one had to bring a loaded gun
And apathy kills
The black girls swear you're the coolest white girl around

This time I know I'm the last one
To ever find out about something you wanted to say...

Look at you now
I will
But won't follow you down
Look at you now
I did
But I don't want to do it again

I heard about you
Spending your nights with the hip drug you read about
I'll be there
When they carve your name on a stone at the edge of town

This time I know I'm the last one
To ever find out about something you wanted to say...

This time I know I'm the last one
To ever find out about something you wanted to say...
