

Another Way Out

Far

She said she liked the way I felt
and breaking down my boundaries
She found her way around
Myself, I wished I'd never come home
Kicked in and sure you wanted it
You wish you'd never gone or thought of it
Another Way Out
And you find yourself alone
Crazy and alone again
You wish you weren't so afraid
You wish something would come along
To make you want to

So find me something you would never know
Wade into my water
Find me something good
