

## Boring Life

Far

You're like kissing lipstick;  
you're pasty, warm and dry.  
You're boring, you bore me.  
You're such a boring guy.  
At first I kinda liked it,  
the way it oozed out of your mouth.  
Then there was more and more,  
and it got got boring.  
Just another boring lie.  
So what if I just pick this knife up and cut you all across your smile?  
Would that be boring?  
Would that be boring, or just one less boring life?  
Boring life.
