

## High To Die

Farmer Boys

A thousand miles away  
I'm staring through a screen  
I see the world with different eyes  
A thousand miles away  
In a state supreme  
I see the world through different skies  
Are you saying good bye  
Are you ready to fly  
Are you coming away  
Are you going to stay  
High to die  
A thousand miles away  
I'm staring through a screen  
I see the world with different eyes  
Are you saying good by  
Are you ready to fly  
Are you coming away  
Are you going to stay  
High to die  
-staring through a screen  
-in a state supreme
