

# Where The Sun Never Shines

Farmer Boys

Deep in the ground  
Where the sun never shines  
You move your eyes  
And you know you're still alive

We'll never share the pain  
We'll never feel this way again  
We'll never have to cry  
Or ever say goodbye

And if the world should disappear  
Don't be afraid I'll be right here  
I'll never leave your side  
Buried here alive, with you

You never knew  
That I feel like I do  
I brushed your lips  
With a cold deadly kiss

We'll never share the pain  
We'll never feel this way again  
We'll never have to cry  
Or ever say goodbye

And if the world should disappear  
Don't be afraid I'll right here  
I'll never leave your side  
Buried here alive, with you

We'll never share the pain  
We'll never share the pain  
We'll never feel this way again  
We'll never have to cry  
Or ever say goodbye

And if the world should disappear  
Don't be afraid I'll right here  
I'll never leave your side  
Buried here alive, with you  
With you  
With you
