

How Can I Forget You

Faron Young

You told me to forget I love you but you never told me how
I can't tell this heart of mine stop don't love her now
You say that someday there will come a time when I'll find some
one new
But you don't seem to understand I'll love only you
How can I forget you just where do I start
If you know the answer won't you tell it to my heart
You've made me love you from the first day the first day that we've met
So darling stop and tell me how can I forget
How can I forget you...
