

I Can't Stop Loving You

Faron Young

I can't stop loving you so I've made up my mind
To live in memories of an old lonesome time
I can't stop wanting you and it's useless to say
So I'll just live my life in dreams of yesterday

Those happy hours that we once knew so long ago made me blue
They say that time heels a broken heart
But time has stood still still still since we've been apart
I can't stop loving you...
