

I Hear You Talkin'

Faron Young

You want me to come back and love you again
I hear you talkin' but your words ain't comin' in
You want me to be something that I ain't never been
I hear you talkin' but your words ain't comin' in
I learned the lesson you taughed to me
I might be a guessin' but I think you made a fool of me
You should've thought of the way you'd feel before you were unt
rue
I hear you talkin' but your words ain't comin' in

You want me to come back...
I guess I loved you but I found out so soon
Cause this heart of mine was fallin' so in love with you
Best of him lots of luck I guess this is the end
I hear you talkin' but your words ain't comin' in
I hear you talkin' but your words ain't comin' in
I hear you talkin' but your words ain't comin' in
