

I'm Not Sure (i Still Love You)

Faron Young

Too many nights out on the town too many nights out playing round
Too many places too many faces and I'm not sure you still love me
And I'm not sure you still love me
What makes your heart wanna roam is it that way we're alone
Too much goin' you think you're free and I'm not sure you still love me
And I'm not sure you still love me
I guess I knew it from the start that lovin' you was not too smart
Cause you're the kind that plays the fill you're always out and you always will
So now you know just where I stand I just thought I tell you while I can
So now I told you and you know it's true now I'm not sure I still love you
Now I'm not sure I still love you mhm mhm
