

Let Me Hear You Say I Love You (one More Time)

Faron Young

Let me hear you say I love you one more time
Before you go take my hand and walk beside me
To the place you promised to be mine
Kiss my lips for the last time and then darling
Let me hear you say I love you one more time
Just for tonight let's go back to yesterday
Pretend when I hold you close you feel that same old way
You can't love us both you're just not that kind
Let me hear you say I love you one more time
We'll turn the lights down low like we used to do
Toast our future with yesterday's wine
And so my long cold nights will seem a little warmer
Let me hear you say I love you one more time
Darling let me hear you say I love you one more time
