

Lifetime Isn't Long Enough

Faron Young

A lifetime isn't long enough to be in love with you
To prove how much I care sweetheart the way I want to do
A lifetime isn't long enough I couldn't even start
In twice that time to tell you have the things within my heart
If I could live a million years then maybe I'd have time
To make you really understand how glad I am you're mine
I love you more and more each day until my life is through
But a lifetime isn't long enough to be in love with you
If I could live a million years and then a million more
I never could grow tired of sayin' it's you I adore
Long as I live my life is yours my heart and my love too
But a lifetime isn't long enough to be in love with you
