

# Long Time Ago

Faron Young

You used to hold me  
You used to kiss me  
A long long time ago  
As we're introduced again

You said that we were old friends  
But you used to hold me  
You used to kiss me  
A long long time ago

And to me it seems so strange  
To call you by another's name  
'Cause you used to hold me  
You used to kiss me

A long long time ago  
Just seein' you again makes me remember  
A long long time ago when you were mine  
But it's too late to live my life all over

Or to turn back old pages of time  
As you turned and walked away  
I thought again of yesterday  
When you used to hold me

You used to kiss me  
A long long time ago

Just seein' you again makes me remember  
A long long time ago when you were mine  
But it's too late to live my life all over  
Or to turn back old pages of time

As you turned and walked away  
I thought again of yesterday  
When you used to hold me  
You used to kiss me  
A long long time ago
