## **Sweet Love And Happiness**

## **Faron Young**

Sweet love and happiness sweet love and happiness
That's what you give to me all I need
Some loves caused tears and pain some loves changed with the da
ys

Your love won't be that way there will be no loneliness again Sweet love and happiness...

Some loves blow in the wind once they light they're gone again You came and love walked in and you changed the night to day again

Some loves are foolish things somethimes they're tragic dreams Your love is all I need what joy to know you'll always with me

Sweet love and happiness... All I need
