

# What Does It Take To Make A Grown Man Cry

Faron Young

Well what does it take to make a grown man want to cry  
All it took in my case was the sound of your goodbye  
And what does it take to make a man hurt like I do  
All it took in my case was the thought of losing you  
That's all it took to make the teardrops start  
That's all it took to break my foolish heart  
Now I know just what it takes to make a grown man want to cry  
All it took in my case was the sound of your goodbye  
That's all it took...  
All it took in my case was the sound of your goodbye
