

Dirty Game

Fast Food Orchestra

Tonight's the night I won't be alone
Heading downtown to the party zone
From all the girls i see in the club
The one I pick up has her eyes wide shot

We skip the chat and we get to it
Cause she knows what i want and i know that she knows it
But in the morning when she's still around
I'm gonna shut her out without any doubt

Ref.: Get out, get away, hit the road
Get the hell now out of my way
I said now get out, get away, hit the road lady
I don't wanna see you again

So now you know
that I'd been alone
And since then I couldn't carry on
And your part in this game
Was just to help me with my self destruction

Tonight's the night I'm gonna do something wrong
Oh yes you can bet cause I'm seeing red
And the thing that makes me sick
Is nothing else but my life that's pathetic

And when I see you don't think love is the key
We're as close as strangers can be
We'll do it rough and sweet until we can't breath
But in the morning i just want to see you leave

Ref.: Get out, get away, hit the road
Get the hell now out of my way
I said now get out, get away, hit the road lady
I don't wanna see you again

So now you know
that I'd been alone
And since then I couldn't carry on
And your part in this game
Was just to help me with my self destruction
So now you know
that I'd been alone
And since then I couldn't carry on
And your part in this game
Was just to help me with my self destruction

And then I'll cry for you
When you'll go away
I'll reproach myself
For that dirty game
Because you didn't play
You made your move for real
And even I knew that
I made you disappear

So now you know
that I'd been alone
And since then I couldn't carry on
And your part in this game
Was just to help me with my self destruction
So now you know
that I'd been alone
And since then I couldn't carry on
And your part in this game
Was just to help me with my self destruction
