

Don't Give a Fuck

Fast Food Orchestra

Well if the words ever caused you trouble
(will fade away, fade away)
Well if the words ever caused you pain (aha aha)
A lot of bullshits I've heard in my life
That's okay I don't care I just have a good time
That's all I want babe, babe that's all I need

You're cute and you're beautiful
And your smile is incredible
You're sweet, I'm sure you feel the same
I wanna keep you and hold you with no excuse
If you hear what I say I've got nothing to lose
Oh yeah tonight I want to be with you

Don't give a fuck baby what they say?
I just don't care I love you anyway!
There's only one thing that I want you to know!

Yeah just one thing that I want you to know
Is that I love you and I won't let you go
No matter what they say we'll let it flow

Well if the words ever caused you trouble
Well if the words ever made you sad
But time goes by little bit too fast,
Baby don't let our last kiss be our last
Cause we can clear those troubles off your head

You're cute and you're beautiful
And your smile is incredible
You're sweet, I'm sure you feel the same
Well you might be a bit confused
But if you hear what I say you've got nothing to lose
Oh yeah tonight I want to be with you

Don't give a fuck baby what they say?
I just don't care I love you anyway!
There's only one thing that I want you to know!

Yeah just one thing that I want you to know
Is that I love you and I won't let you go
No matter what they say we'll let it flow

Don't give a fuck baby what they say?
I just don't care I love you anyway!
There's only one thing that I want you to know!

Yeah just one thing that I want you to know
Is that I love you and I won't let you go
No matter what they say we'll let it flow
Yeah!
