

Hey You

Fast Food Orchestra

Hey you! Hear what I say! Ohhhh
You take our chance away Ohhhh
But you should keep and save it! Now pay attention!!!
True is that you and me ohhhh
Would be great or so it seems ohhhh
God, some would say you need
Some pills and medication

Oh yeah I just hate it
Why are you so frustrated?
I thing it's time to change it let's talk about
How many times you said that you need somebody else
I'm getting bored with you, I'm gonna fade you out

Is that right? Oh I don't know
But what I know is you should go
You should leave me alone, you shhould leave me alone
You always said that you need
Somebody else-now you got to leave
Now it's your time...just believe...
Don't waste your time...and maybe...You won't waste my time

Hey boy hear what I say
What is the game you play
Why did it start again? My heart is bleeding
I know it's just the fear
Yeah, coming out is hard my dear
You need some dope and beers than you can talk about it

Oh yeah I just hate it
That's why we're separated
I thing it's time to change it let's talk about
How many times I tried, break the fear behind your eyes
I did my best, it's up to you I give it up! Ohhhhhh...ohhhhhh

So said to say but I don't care, so said to say but I don't care

Is that right? Oh I don't know
But what I know is you should go
You should leave me alone, you should leave me alone
You always said that you need
Somebody else-now you got to leave
Now it's your time...just believe...
Don't waste your time...and maybe...You won't waste my time
