

I Miss You

Fast Food Orchestra

How many days must pass me by?
How can I get you off my mind?
When you smiled then i smiled

When you cried then I cried
And you know that I'm right

Everywhere I see your face
Nobody else can take your place
When you smiled then I smiled

When you cried then I cried
And you know that I'm right

I never should have let you go
I can not guess, I want to know
Can you explain how could you love me and leave me, how could you love me And leave me all alone ?

It doesn't matter what i say
God knows I can't resist you
And every little word I say
Baby the truth is that I miss you

Since you have been away
Life's sad and getting gray When you smiled then I smiled
When you cried the i cried
And now my whole world decays
What we had was so much more
Than we ever had before
When you smiled then I smiled
When you cried then I cried
You were mine and I was yours

It's gonna hurt you for rest of your life
Baby you're gonna be lonely

Just like an album of pics that you see
Over again
Can you tell me please how could i know what you'd meant
When you said that you only
Need to be alone just for a little while
Was it the plan, was it the game that you played!!!

It doesn't matter what i say
God knows I can't resist you
And every little word I say
Baby the truth is that I miss you...
