

# Mighty Summer

Fast Food Orchestra

Mighty summer 2008 I felt in love with you that's why I'm telling you this way  
Am I dreamer? Oh I am! Believe me I would die, for your angel eyes

Oh come back to me my love  
Please don't leave the summer like a broken dream  
Oh come back to me my love  
Please don't leave the summer like a broken dream

We were walking side by side  
One million shining stars fell down from the sky above  
We were talking eye to eye  
And your smile was sweet like a cream  
And I wished to hear you say...

Say that you want me, say that you need me  
Please break the silence with the words that will feed me  
I'd like to know what you're feeling in the seconds  
Is your heart affected is your mind infected  
I just wanted to know, but your decision hurts me  
Rain of tears is falling down down from my eyes  
And the river of broken dreams is in the second leaving me  
I'm lonely guy, it doesn't matter that you left me you'll be always on my mind  
Doesn't matter that you left, doesn't matter that you left me behind...

Oh come back to me my love  
Please don't leave the summer like a broken dream  
Oh come back to me my love  
Please don't leave the summer  
Let me kiss you once at least  
I'll be waiting oh I'll be waiting oh I'll be waiting for you
