

# My Home

## Fast Food Orchestra

Oh my short life  
I'm looking for the way which to go  
From the left to the right  
From east to the west oh oh  
Trail my feet and follow my face  
I'm believably sweet to gone to my space

You know why I feel it's all right  
Because some make it over round and die  
You gotta take(s) me home

My home the place where you're happy  
I say my home the place where you never be alone  
My home the place where you happy  
I say my home baby my home

Oh my baby  
I shall show you my house (my house)  
My big brown eyes are open like a \_\_\_\_ browse  
Read what you want to and I hold you tight  
Close your eyes and I show you drive through the night

You know why I feel it's all right  
Because some make it over round and die  
You gotta take(s) me home

My home the place where you're happy  
I say my home the place where you nevr be alone  
My home the place where you happy  
I say my home baby my home
