If not today maybe tomorrow they're gonna play this song on the
radio

And I'm gonna have all the ladies

If not today maybe tomorrow I'm gonna have every little bitch

And I'm gonna be so famous and rich

Radio - sick tune on the Radio

Radio - they play your favourite song

Radio - sick tune on the Radio

I wanna show you who's right back in the water

Great white just bites again man go and leave his border

This one is special it's all you ever wanted

This tune is sick and we play it loud for fame and for your mon
ey

Everybody wants to listen it and everybody likes it

We want some special catering, teenage babes in the backstage

we want some luxury rooms and we want some houses

Everybody knows we want it all

But not today because tomorrow we're gonna get back in the van

And we're gonna do the best we can

Not today not tomorrow they'll never play this song on the radi
o

But we don't care cause we have it all!

Radio - sick tune on the Radio

Radio - they play your favourite song
