

The Crossroads

Fast Food Orchestra

Everyone stands in line and give me five
I should have time of my life
But I feel strange I know something ain't right
This way may bring me to blight

I want to get away
I want to find the way that's right
I want to break the chains
I want to feel that I'm alive

I've lost all my emotions
See my life in a slow motion
All my bad steps
Dreams fallen down
Love I left behind
My will was grind
Living from a day to day
Work hard to forget and to feel ok
Oh yes I want to press rewind
I've been going forward but staying blind

I want to get away
I want to find the way that's right
I want to break the chains
I want to feel that I'm alive

I want to get away
I want to find the way that's right
I want to break the chains
I want to feel that I'm alive

Oh but ever since I was a child
I was told that this way is right
Go to work five from seven take care of my wife

And when I say to myself that I would try
I don't want to say any lie
But deep inside despite I'm not ignited
I hope for sunshine in my life

I want to get away
I want to find the way that's right
I want to break the chains
I want to feel that I'm alive

I want to get away
I want to find the way that's right
I want to break the chains
I want to feel that I'm alive
