

Have you ever felt just like tonight?
Sexy movements on the sidewalk everything's alright
It's our jive we're moving around and that sound baby? It's so sexual!
Molotov's cocktail's flying over your head space of joyful tune
is driving you mad
The ban is falling down just like a summer rain and the blood's
still flowing in your vein

It's really good time for dance tonight
And everybody have to feel alright!

Have ever felt just like tonight free like a bumble bee flying
in the sky
It's our jive we're moving around and that sound baby? It's so sexual!
Shake your body and clap your hands then say ok yeah if you understand
The ban is falling down just like a summer rain and the blood's
still flowing in your vein
