

Airstream, big chrome airstream  
Leave the world behind me  
They won't find me in my airstream

Free, I don't wanna be stuck in the city  
With the cars and people downtown  
Waiting in a line, wishing I was far away  
Where no one knows my name, ocean  
Big blue ocean rolling like a daydream  
Down the highway in my airstream

Free, I don't wanna be stuck in the city  
With the cars and people downtown  
Waiting in a line, wishing I was far away  
Where no one knows my name or my address  
It's a place I've never been

When it gets too familiar I'll be gone

Free, I don't wanna be stuck in the city  
With the cars and people downtown  
Waiting in a line, wishing I was far away  
Where no one knows my name or my address  
It's a place I've never been

When it gets too familiar, I'll be gone  
When it gets too familiar, I'll be gone  
When it gets too familiar, I'll be gone
