

Airstream

Fastball

Airstream, big chrome airstream
Leave the world behind me
They won't find me in my airstream

Free, I don't wanna be stuck in the city
With the cars and people downtown
Waiting in a line, wishing I was far away
Where no one knows my name, ocean
Big blue ocean rolling like a daydream
Down the highway in my airstream

Free, I don't wanna be stuck in the city
With the cars and people downtown
Waiting in a line, wishing I was far away
Where no one knows my name or my address
It's a place I've never been

When it gets too familiar I'll be gone

Free, I don't wanna be stuck in the city
With the cars and people downtown
Waiting in a line, wishing I was far away
Where no one knows my name or my address
It's a place I've never been

When it gets too familiar, I'll be gone
When it gets too familiar, I'll be gone
When it gets too familiar, I'll be gone
