

Funny How It Fades Away

Fastball

Those days when our hearts were big as the sun
Turn around with a smile for everyone

That feeling's a memory
Funny how it fades away

You won't see those pale grays returning to blues
The colors will wash out as I shrink in my shoes

And I won't always live and breathe
Watch me as I fade away

We wake in the morning and work all day
We dress up in the evening with nothing to say
Just like a candle burning bright
Burning like forever then it fades away

Who on this planet would ever refuse
The chance of a lifetime to love and lose?

When time is of no importance
Have you seen it slip away?

We wake in the morning and work all day
We dress up in the evening with nothing to say
Just like a candle burning bright
Burning like forever then it fades away

We wake in the morning and work all day
We dress up in the evening with nothing to say
Just like a candle burning bright
Burning like forever then it fades away
