I Get High

Fastball

Too bad, I don't get my own way Want champagne, all they got is Cabernet and I'm wastin' all my time I feel good, but there's a tear in my eye Rain fallin' from a cloudless sky, I get high, forget about it all Red lights flashin' behind my cracked up rear-view mirror Thunder crashin' down, and screamin' in my ear I guess, I drew a bad card somewhere down the line And I never win my money all back, I'm only here for a limited time Probably see me hangin' around by the railroad tracks, I get hi qh We used to have a house down by the shore Every night, we'd take a walk to the liquor store And we'd get wasted all the time, I hit the city, when I lost y a, girl Not so pretty, it's a different world, I get high, forget about it all Red lights flashin' behind my cracked up rear-view mirror Thunder crashin' down and screamin' in my ear I guess, I drew a bad card somewhere down the line And I never win my money all back, I'm only here for a limited time And then I got a bag to pack I'm goin' down, I'm goin' down I'm goin' down, I'm goin' down Too bad, I don't get my own way Maybe you and me can try to get together some day Because I'm wastin' all my time I feel good, but there's a tear in my eye Rain fallin' from a cloudless sky, I get high, forget about it all I get high, forget about it all

I get high, forget about it all
