

Nowhere Road

Fastball

There's trouble on the subway
There's something on the track
There's a dead end waiting and
We can't go back
So take it to the highway
Head back and open wide
Step right up and take a nowhere ride

It's a nowhere road
It's a nowhere road
No matter where it goes it's a
Nowhere road
It's a nowhere road and I'm tired
It's a nowhere job and I'm fired
It don't matter what they say
You can't get there going this way

From L.A. to Miami
And all points in between
Look outside you get the same old scene
You take it to the highway
You travel far and wide
Caterpillars carving up the country side

It's a nowhere road
It's a nowhere road
No matter where it goes it's a
Nowhere road
It's a nowhere road and I'm tired
It's a nowhere job and I'm fired
It don't matter what they say
You can't get there going this way

It's a nowhere road and I'm tired
