

This Is Not My Life

Fastball

This, this is not my life
This, this is not my life

This is not my face
This is not my place
No it's just isn't right
This, this is not my life

You, do you remember me?
Remember, the way that it used to be
Do you remember our car?
Do you remember our house?
Do you remember what it was like?
'Cause this, this is not my life

My life, my life
(Now I live in the shadows)
My life, my life
(Because you are my life)
My life, my life
My life

You're the only one
Who can see, the real me
You're the only one
Can't you see? Can't you see?

You took away my world
You took away my world

You took away my smile
You took away my life
You took away my reason to live
You, you took away my world
And this is not my life
And this is not my life

My life, my life
('Cause now I live in the shadows)
My life, my life
(Because you are my life)
My life, my life
(And now it's endless night)
My life, my life
(And this is not my life)
My life, my life
My life, my life
