

## Which Way to the Top?

Fastball

Where did you leave your baby  
Bleeding in her bed  
Her ghost has come to stay  
Oh, you can try, you can't chase her away

In the bar we sit like blackbirds  
With our broken wings  
Like clocks without their springs  
Just like time doesn't mean anything

Won't you tell me  
Which way to the top?  
You know that I can't stay  
Down here

We used to ride around in a broken down old car  
But now I'm changing trains  
Oh, and I'll hit all the notes in between

Mom and Dad are fast asleep now  
But I'll be wide awake  
A surfer in the break  
Oh, just waiting for the perfect wave  
And a place in the shade

Won't you tell me  
Which way to the top?  
You know that I can't stay  
Down here

You better get it now while  
The getting's good  
Get it now while it's happening  
You better get it now while  
The getting's good  
Get it now while it's happening, oh yeah

Won't you tell me  
Which way to the top?  
You know that I can't stay  
Down here

...
