

Shooting You Down

Faster Pussycat

I'm not seein it, baby
I gotta hear what you say, say it
Come on, say it, come on
You got me walking right on broken glass
And when I start to bleed
Is when you start to feed

Leakin through to the basement of my soul
I've been on fire before, but I never felt so cold

Standin on the edge (shooting you down)
And I'm lookin down (shooting you down)
And I try my hardest just to shoot you down
I'm laughin like a clown (shooting you down)
I'm trackin you down (shooting you down)
And I try my hardest just to shoot you down

Cadillac woman, your makeup
Is startin to roll down your white walls
Come on, stop it, come on
You're killin all the flowers of romance
The ones deep in me
That were never diseased, no

Peakin through the window of my home
Now I'm with so many people, but I've never felt so all alone,
no

Standin on the edge (shooting you down)
And I'm lookin down (shooting you down)
And I try my hardest just to shoot you down
I'm laughin like a clown (shooting you down)
I'm trackin you down (shooting you down)
And I try my hardest just to shoot you down

You better watch out, baby
There's a whole lot of shootin goin on
And if I ever catch you
Gonna crack your backside down, right
