

# Bloodbath

Fastkill

I've come to kill you  
watch you die in pain  
I'm possessed by death  
worshiping evil  
conceived to kill  
living just to die  
I feel the end has begun

My face shows no emotion

The mind of an animal behind human eyes  
death on death makes the world go around  
I'll kill till I die

Your blood spills everywhere  
and it pours as rain  
death and torture is my game  
I'll just kill again

Bullet holes through flesh and bone

The face half-rotted off  
human flesh feeding frenzy  
destroy till there is no more  
the darkness breeds violent sights  
indiscriminate acts of mass murder  
horrifying hell, terrifying death  
in's you who's next to die

Bloodbath

Hallucination, annihilation  
irresponsible atrocity  
termination  
this mortal life plunges  
into the pandemonium  
violation, destruction, execution  
no way to survive
