

Die In Pain

Fastkill

You have betrayed me and beat me down
Your visions are totally insane
You are unclean and you are the freak
I won't take any more shit

I feel nothing in myself only killing of you
I break you inside out
Death? The only choice for you
Never ending death

Die in pain

Your blood is spilling everywhere
Pieces of you scattered on the ground
Break you up smash you up and fuck you up
Take you to where your body will lie
