

# Feel Me, Touch Me (Do Anything You Want)

Fastway

Tonight's the night  
When the groovin's too tight  
You feel you just got to pull all the strokes  
So you take her outside  
Fool around for a while  
Show her things a woman should know

Feel me, touch me  
Do anything you want  
You want

So you're aimin' to tease  
And the lady says please  
Show me things I really ought to know  
Ask some advise  
I really hypnotise  
Rev-up and let yourself go

Feel me, touch me  
Do anything you want  
You want

Dynamite and glycerin  
Couldn't change the way I feel about you  
And I think you should know  
But one thing's for sure  
You ain't all that poor  
When it comes to makin' love

Feel me, touch me  
Do anything you want  
You want
