

Feel Me, Touch Me (Do Anything You Want)

Fastway

Tonight's the night
When the groovin's too tight
You feel you just got to pull all the strokes
So you take her outside
Fool around for a while
Show her things a woman should know

Feel me, touch me
Do anything you want
You want

So you're aimin' to tease
And the lady says please
Show me things I really ought to know
Ask some advise
I really hypnotise
Rev-up and let yourself go

Feel me, touch me
Do anything you want
You want

Dynamite and glycerin
Couldn't change the way I feel about you
And I think you should know
But one thing's for sure
You ain't all that poor
When it comes to makin' love

Feel me, touch me
Do anything you want
You want
