

Revolution

Fastway

Hold on to your side
You were born to fly
You gotta feel it in your soul, now
What is emotion
Baby, no escape
Fear is far away
Uooh, everything is changed now
A revolution

Go to be wild
A hunter in the game called freedom
Follow the light
The dark is just a state of your mind, so
Turn on the night boy

Revolution
Wake up the sleepy samurai
Fightin' in your spirit
Revolution
You got the fire in you, in your heart

And now the world will keep on burnin'

Revolution
Switch the lazy samurai
Let me feel the power
Revolution
You got the fire in you, in your heart
And like the sun you got the world on
Revolution

Turn your head around
Never lose your ground
You gotta feel you're back in town, boy
Real emotion
Really havin' fun
Fightin' on the run
Uooh, they can't knock you down, now
A revolution
