

No Place Like Home

Fat Ugly Crappy Kids

1. You've been away You've been home
You've been weak and You've been strong
It's hard to believe It's been so long
Visit your friends Your mind tells you to do so

R: Oh Oh No place like home
Oh Oh Time to come home

2. Coming back It's not very easy
But you know it's time To change your mind
Trying to find a place to live
A place to hide Come on let's go back

R: Oh Oh...

3. You've made some money You've made some friends
But there's no place like Home In this universe
You gave the best You could give
It wasn't not enough For these people here

R: Oh Oh...

4. Go on in your life and forget all the errors
The lifestyle you couldn't get used to it
All the changes and differences
Go, rather than staying here

R: Oh Oh...
