

Demons

Fatboy Slim

They said she had a heart attack
I think the creatures coming back
And I am fine, coz all my love's electrifying
And I come feel like assessable
Wanna be with you
And it's my premonition
I better give my heart a listen
And my preacher say

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
Coz all of my demons have withered away

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
Coz all of my demons have withered away
All of my demons have withered away

He said he shook himself to death
I wanna dance to my last breath
... only party's hard and ...
Come feel like assessable
Wanna be with you, wanna be with you
And it's my premonition
I better give my heart a listen
And my preacher say

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
Coz all of my demons have withered away

All of your demons will wither away
Ecstasy comes and they cannot stay
You'll understand when you come my way
Coz all of my demons have withered away

All of your demons wither away
Demons wither away
All of your demons wither away
You'll understand when you come my way
All of your demons wither away
When you come my way, when you come my way
All of your demons wither away
Oh no no, they wanna get me down, yeah they wanna get me down
All of your demons wither away
I better give my heart a listen
Ecstasy comes and they cannot stay
I better give my heart a listen
I better give my heart a listen
I better give my heart a listen
Come my preacher say all of my d-e-yeah-hey

All of your demons will wither away
Ecstasy comes and they cannot stay

You'll understand when you come my way
Coz all of my demons have withered away

Yeah-hey - yeah-hey - yeah-hey
All of my - yeah
Ecstasy - oh
