

# All By Myself

Fats Domino

Little girl don't you understand  
I wanna be your lovin' man  
All by myself, all by myself  
I don't need no-one to love you  
Gonna love you all by myself

Well meet me in a hurry behind the barn  
Don't be afraid I'll do you no harm  
All by myself, all by myself  
I don't need no-one to love you  
Gonna love you all by myself

Well I got a girl who's six feet tall  
Sleeps in the kitchen with her feet in the hall  
All by myself, all by myself  
I don't need no-one to love her  
Gonna love her all by myself

Well I got a girl who lives on the hill  
She won't love you but her sister will  
All by herself, all by herself  
I don't need no-one to love you  
Gonna love you all by herself
