

## Telling Lies

Fats Domino

You've been telling me lies and I know it  
There's no love in your eyes 'cause it's showing  
'Cause every time I hold you in my arms  
You just lie, lie, lie, lie, lie

You said you wanted me for your honey  
But all you wanted was my money  
You didn't even try to make me satisfied  
You just lie, lie, lie, lie, lie

You know you made me love you  
When your rolled those great big eyes  
Although I didn't know it  
They were only stirring up lies

You've been doing me dirty and you hide it  
I know I can't leave 'cause I've tried it  
So just as long as you hold me in your arms  
You can lie, lie, lie, lie, lie

You know you made me love me  
When your rolled those great big eyes  
Although I didn't know it  
They were only stirring up lies

You've been doing me dirty and you hide it  
I know I can't leave 'cause I've tried it  
So just as long as you hold me in your arms  
You can lie, lie, lie, lie, lie
