

# Won't You Come On Back

Fats Domino

You said you was going away, I said I didn't mind  
And I'm sitting in here today with all the things you  
left behind  
Now I'm sitting on the front step where the flowers  
seem to cry  
And if you don't come back today I'm sure that they  
will die

I know that I would die

So won't you come on back, baby please come back  
Baby come on home, I'm all alone  
I wanna sing to you, make love to you - come on!

Everything reminds me of you, yes everywhere I turn  
I looked on the table, I saw a long cigarette burn  
I'm listenin' to that song, the song you used to sing  
There's a hole in the wall where your picture used to  
hang

Yes where your picture used to hang

So won't you come on back, baby please come back  
Baby come on home, I'm all alone  
I wanna sing to you, make love to you - come on!

You told me that you love me, you know lying doesn't  
pay  
You said you'll be with me unitil Judgment Day  
Until Judgment Day

So won't you come on back, baby please come back  
Baby come on home, I'm all alone

I'm all alone  
I'm all alone  
Oh won't you come on back  
Oh won't you come on back  
Baby please come back  
Baby come on home  
I'm all alone  
I'm all alone...
