

## Young School Girl

Fats Domino

Hey, little school girl  
Wake up, sleepy head  
Come on, little darling  
Get up out of that bed

The school bell is ringing  
Vacation time is gone  
No more watching the late show  
From now on

No more calling  
Calling Judy on the telephone  
No more going out swimming  
Vacation time is gone

Hey, little school girl  
Your time is awful short  
The tardy bell will catch you  
Hurry or you'll be caught

The school bell is ringing  
Vacation time is gone  
No more watching the late show  
From now on
