

Come On Give Me A Smile

Favez

I can't get to you you got it made you got it simple and plain
you got it smooth
I can't get to you I can't get to you come on what's the use is
it a matter of truth
Is it a question of time is it a question of time until you go
until you pack up
And leave so you can breathe come on give me a smile it's alright I know
We never were confused we never put on a show it's alright and
hey goodbye to all
We've got left to say
