I Brake For No One

Favez

I can always get there first if I drive it really fast
I get all the parts for nothing and that's why I'm never last a
nyhow
I wait for no one because no one waits for me I can do it with
my eyes
Closed doing a hundred and twenty three oh but the light says s
traight ahead
I don't care for green or red I brake for no one I can count to
 ten or twenty
Anyway I'm still alive like the driver on the tv get a life at
twenty five
But the light says straight ahead I brake for no one
