

# The Light Is Coming In

Favez

We saw him driving on the high roads  
Coming down the mountains  
And we could hardly breathe

He could have come here anytime  
But he likes it in the morning  
At the early break of day  
When night is turning blue  
When the light is coming in  
When the light is coming in

He said it wasn't down the right way  
So we said come on in  
And we can talk a while  
We knew he wouldn't make it easy  
But we had hell to pay  
And he cashed it in all day  
Till every word was true  
Oh the light is coming in  
Oh the light is coming in

When we'd told him what we know  
He sighed I don't know what to do  
But I ain't scared of nothing  
Cause I'm better man than you  
And the light is coming in  
And the light is coming in  
And the light is coming in  
The light is coming in
