

Catch Me

Faydee

You have me up against the wall
Soon as you walk through the door
I couldn't look the other way
Think I forgot my name
And every girl that's in the room
Don't compare to you
You're takin over me
And everything that you do

Got me high on love, and it's all because of you
You're all that I've been thinking of
Gotta say that it's not like me
But it's all okay 'cause I can't get enough of love

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it
It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you

Got that look upon your face
Like come and take me away
I put my hands around your waist
Now come and dance with me
And as we move across the floor
I can't ignore it anymore
You're taking over me
And everything that you do

Got me high on love, and it's all because of you
You're all that I've been thinking of
Gotta say that it's not like me
But it's all okay 'cause I can't get enough of love

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it
It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you

You've opened my heart, you've captured my soul
I'm falling in love, will you ever know?
You've opened my heart, you've captured my soul (yea yea)
I'm falling in love, but you need to know

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it

It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you
