

Dissolve

Fear and the Nervous System

Bleekened from inside, hands not moving
All around the eyes show darker rings
These precious things that helds us together
have fallen to ashes and run through our fingers
A perfect star circle of 10 000 tears
each one for a reason
All for a reason

It's time the enemy (Release me)
Are we dissolving (Please tell me)
Am i the enemy (Release me)
This time, this time is not worth saving

The world slow its spin
these sheets that i lay in
A costume, a disguise
pretend my nagging
Insides revolve cherish and despise in anger and hunger
I am dissolving

It's time the enemy (Release me)
Are we dissolving (Please tell me)
Am i the enemy (Release me)
This time, this time is not worth saving

Whoa, how could i love you
the time strikes twice and breaks in two
I don't need anything you gave to me

It's time the enemy (Release me)
Am i the enemy (Release me)
Dissolve move on
I am the dawn to freedom
Dissolve move on
Dissolve move on destroy me

Say good night
you all but not the final farewell
You know that i'll be letting myself out (Myslef out)
Dissolve move on
